What people Say:

Kai

A phoenix might live forever but my hopes just died with this book.

You might be shaking your head, thinking

Well, that makes two of us. I didn't have high expectations when I started this book " both and

were disappointing " and I thought I'd rate this with two stars, maybe three. The first few chapters were rocky but then I started to enjoy myself. And around the 100-page mark, it all went downhill again. So

Well, that makes two of us. I didn't have high expectations when I started this book " both and

were disappointing " and I thought I'd rate this with two stars, maybe three. The first few chapters were rocky but then I started to enjoy myself. And around the 100-page mark, it all went downhill again. So much that I can't justify giving more than one star. Never in my life did I think I'd rate a Silvera book so low.

Adam Silvera

Hint: PHOENIXES.

is a combination that can defeat Thanos

Jesse (JesseTheReader)

I still need to sit on this one for a bit to know how I really feel. There were parts of it that I really enjoyed. I loved Emil's storyline, I loved all the celestials that we got to know, & I love all the twists this story brought on. On the other hand I found issue in the world building and the pacing. This felt like a very in and out book for me when it comes to enjoyment. I do think it sets up nicely for the sequel & I'm looking forward to seeing where book two takes us. (especially

I still need to sit on this one for a bit to know how I really feel. There were parts of it that I really enjoyed. This felt like a very in and out book for me when it comes to enjoyment. I do think it sets up nicely for the sequel & I'm looking forward to seeing where book two takes us. (especially because of that ending...o)

ALSO BRIGHTON CAN CHOKE. :D

Alex's Comets and Comments

I'm going to start everything by saying if this is your first AS book (or if it will be and you end up sharing my feelings about it) then

I'm going to start everything by saying if this is your first AS book (or if it will be and you end up sharing my feelings about it) then please do not give up on him. His contemporaries are so heartbreakingly beautiful and lyrical, it felt like this was a different author. Secondly, if you end up loving this book, wait till you get a load of his previous work, chief. Just saying.

When I finished this book, the main problem I had was that I couldn't remember half the story. I had read this on and off for a while because I kept getting bored, but then something interesting would happen and I would keep reading. Rinse, repeat. It truly sucks that I have to write this review because I wanted to love this so much. I wanted to rave all about it and get excited when I see people reading it on my feed. *sigh*

This book is not without merit. It has fantastic representation and whilst the LGBT romance didn't take the main stage, having a queer writer writing queer characters is

a win (plus, even though it was very poorly executed - it was a hero+villain romance so double win). There was cast diversity and plenty of it!! Had the plot been more captivating, reading about phoenixes?? Hell yes! My fantasy world has seen vampires, werewolves, trolls, sirens etc etc. but this is the first book I have ever read that MC's phoenixes (Fawkes will always be my OG, don't you even worry). I enjoyed reading about Emil and Brighton's bond, that was the one thing that felt "real" to me, even though a lot of their dialogue and arc's were cliché.

Which brings me to my first (but not biggest) problem, there were way too many clichés. The dialogue, the relationship dynamics, the development of the story. I don't know how this book managed to be worse than Zenith but it did... We even got this line;
