So I honestly have no idea how I made it through this. That's a lie...I skipped a lot at the end. There was just a lot in this book, some of it good but so much of it not. Like in the previous book, there were lots of small subplots and I had to wonder if they were really needed.

We're told Gwendolyn and Christopher are such great friends as children but we only get one real interaction with them during that time and it's not exactly the friendliest. And honestly, they didn't spend much time

We're told Gwendolyn and Christopher are such great friends as children but we only get one real interaction with them during that time and it's not exactly the friendliest. And honestly, they didn't spend much time together throughout the rest of the novel. I have no idea how they fell in love. And there was absolutely zero sexual tension in this novel.

Christopher is British but spent a few years in Italy and-ta-da!-now drops Italian phrases into almost every conversation he has. This almost made me a crazy person. It got annoying SO fast.

Speaking of annoying, that's every side character in this novel. And they were all godawful people on top of that. I was kind of hoping a virus would hit the household and take them all.

I don't know if I'll be continuing with this series or not. This was quite a chore to finish.

His father didn't understand Christopher at all and was constantly pushing him into things that Christopher just hated. So, when Christopher was twenty, he decided to leave home and when he told his father he was leaving, but would write his father told him not to bother. He left that night, traveled the continent working at many odd jobs, and didn't return home for several years.

Gwendolyn Penhallow is another delightful character you'll love her as well. She comes from a large, happy, boisterous family you met them in the last book,

Gwendolyn has missed her friend from next door over the years. She's wondered what happened to the troubled young man to whom she once proposed when she was ten and four. Now, she's in London for her delayed London season and she's already engaged to the most handsome, most wonderful man. It was love at first sight they literally saw each other across a crowded room and they were lost in each other.

Sadly, this didn't do it for me. This was the second book in a row that I've read that had horrid side characters. There was what seemed like a lot of nothing going on, and our heroine was engaged to someone else through most of the book. I did like our hero Christopher though.

I am sure this would be lovely for others. It just wasn't for me.

I was much looking forward to

but along the way I must have gotten lost. Because I couldn't for the life of me enjoy this in the least. I was very bored and my goodness, there wasn't any sexual tension or chemistry between the two leads. They felt like distant cousins, if anything.

I wish I could say this got better the more I read, but unfortunately, it didn't. If you're looking for an epic romance, you won't find it here!
