This is the Asian SFF book of my dreams -- the one that little Amelie desperately needed in her life, and I am so incredibly, heart-bursting-from-chest-ingly happy that it is coming to you in 2020.

REBELWING follows the story of Prudence Wu, a witty and precocious high school student with a side job: she smuggles banned media from one of the last free, democratic strongholds of a futuristic United States into "Incorporated" lands strife with propaganda and stringent controls. Her life is changed forever when she is saved from a smuggling-trip-gone-wrong by a sentient mechanical dragon, and swept into a game of revolution and rebellion.

REBELWING boasts diversity with its POC/marginalized cast. I've grown up seeing Asian characters appear as "the ones who die first in the battle" (Pacific Rim) or "the sidekicks with glasses and no personality" (Gossip Girl) and just never, ever in the front seat, driving the cool mechanical dragon and leading the rebellion and saving the day. In REBELWING, the POC/mixed/queer characters are the heroes who save the day, and they are fighting for the good side, the free side.

From a personal conversation with the author, I know that the aftereffects of the 2016 elections were a major influencing factor for this book, and I saw so much of it as I read it. Between the witty lines of banter from children with enviously large vocabularies, it explores all aspects of revolution, rebellion, and resistance: the cost of liberty, the weariness of a generation past & the hope of future generations "€" and the personal sacrifices and conflicts that come with fighting for a better world. And most importantly of all, it hands the torch to the next generation and ends on a note of hope.

2020 can't come soon enough.

Rebelwing is everything I wanted and more. Prep school setting, smuggling, and cybernetic dragons? Even more than that, Rebelwing asks questions about censorship, rebellion, and hope. Prep school smuggling in a Science Fiction setting with sentient cybernetic dragons? I feel like Rebelwing was made for me. Rebelwing is an action packed story that features an unlikely heroine and examines questions of capitalism, greed, and censorship. In times of rebellion, we are asked what kind of leaders we want to be, what kind of sacrifices we are willing to make. This SF book is set in a world swirling with the politics of censorship and media. How does this effect not only our culture, but what we can believe is possible?

Pru is a fantastic character because her decision whether she will be involved is so unique. Unsure what she believes in, what will happen if she doesn't rise to take the mantle? Can she afford to not become involved? Having to pilot Rebelwing, Pru is faced with her weakness and the ways in which she has tried to avoid the things that have exposed her vulnerabilities. I loved seeing the development of her feelings towards Rebelwing and the revolution as a whole.

Thematically, Rebelwing is fantastic. I've already mentioned that it discusses rebellion and censorship, but it only gets more complicated as the story progresses. I don't want to spoil the further plot points, but if you've been craving a thoughtful YA SF book, then look no further! There's also a queer SC/romance. Rebelwing is about sacrifice and creation, rebellion and hope, resistance and idealism, grief and friendship. It celebrates the importance of stories, belief, and possibilities.

This book was awesome!! How can you go wrong with a dystopian sci-fi with dragons and rebellious teens? It's also a magnificent tale of believing in yourself and in your capacities, and to listening to your heart. The characters jungle with being students in a prep school and with.... saving their world. Not easy!

Many thanks to Penguin Random House Canada for the advance copy of this book! Opinions expressed in this review are completely my own.
