What people Say:

Christi M

I absolutely loved this rich, complex story, which is filled with what feels like a multitude of characters that each have their own motives and purpose within the story. The Throne of the Five Winds is simply beautifully written and one I whole-heartedly recommend.

Oh my goodness â€“ this book is long. 704 pages long. Iâ€™m not used to reading for hours and not be 10% into a book. Well, truthfully, it took a bit longer at the beginning because of the overall complexity of the book and s/>

I received a free copy of this ebook from the author, Orbitz publishing, and Netgalley in exchange for an honest review.

Yala Komor has been chosen to be Princess Mahara's lady in waiting who is to be married to a prince in the land of Zhaon. Once there, they try to fit it only to be targeted by assassins and more. Can they survive this cruel land? Read on and find out for yourself.

Yala Komor has been chosen to be Princess Mahara's lady in waiting who is to be married to a prince in the land of Zhaon. Once there, they try to fit it only to be targeted by assassins and more. Can they survive this cruel land? Read on and find out for yourself.

This was a pretty good historical fantasy fiction. If you like these types of stories, be sure to check this book out. It is now available to own in bookstores everywhere.

Ari

Simply beautiful, seeped in tradition, seamlessly flowing court life with its never-ending intrigue. The characters in this book are so distinct one from the other, each one so nicely developing, with such (sometimes) restrained ways about them that speak so well of their times and manners. And while some might not enjoy the slow pacing and developing of a novel as large as this one, I found that to be one of its most enjoyable aspects. It allowed me to fully explore every little nook and cranny

It allowed me to fully explore every little nook and cranny of this story and wish for more.

Bob

The Throne of the Five Winds is a big book. A big, thick, dense book that's overflowing with key characters, scattered locations, and tangled relationships. It's neither an easy read to get into nor a quick one. As beautifully written as it is, and as strong as the characters are, it still took me a couple of hundred pages to become comfortable with the story – but it all pays off eloquently in the final pages.

The politics and family drama here rival anything to be found in epic fantasy

The Throne of the Five Winds is a big book. A big, thick, dense book that's overflowing with key characters, scattered locations, and tangled relationships. It's neither an easy read to get into nor a quick one. As beautifully written as it is, and as strong as the characters are, it still took me a couple of hundred pages to become comfortable with the story – but it all pays off eloquently in the final pages.

The politics and family drama here rival anything to be found in epic fantasy and it all begins with an Emperor whose disregard for the women in his life starts a tumbling of political dominoes. Queens and princes, wives and brothers, they're all plotting and scheming, playing off one another with silvered tongues and poisoned kisses – not to mention assassination attempts and actual poisonings. You need a scorecard to keep track, but as you get deeper into the story and more familiar with the characters, the entertainment value of those conflicts increases significantly.

Mahara and Yala are the heart of the story, and that relationship between hostage princess and loyal lady-in-waiting is the best-developed one in the novel. They are genuine, with an emotional back-story, and it's easy to believe in the loyalty they feel for one another. Standing in contrast to the two is Queen Gamwone, a cruel, foul, deplorable woman who is something of a guilty pleasure every time she appears on the page. Her cruelty to her children doesn't just illuminate their characters, it defines them, creating sympathy and empathy that cracks open the density of the narrative.

Politically and geographically, S. C. Emmett has crafted an Asia-inspired fantasy and the world-building behind it stands up to the political maneuvering in front of it. Customs, morals, and languages are so well-defined that innocuous terms and comments for one character are amusing or offensive for others, and mistakes in translation are realistically common.

If I were to have any complaints, it would be that The Throne of the Five Winds is far more heavily character/relationship focused, and a sometimes light on the complexities of plot. I would have preferred that it start before the end of hostilities, partly to inject some action into the plot, and partly to give the political sacrifices more significance.

Eric

I was pulled in and ended up finding The Throne to be a terrific read. Looking forward to volume 2.

It's been awhile, and I forgot to add: received as a Goodreads Giveaway in exchange for an unbiased review.
