The

retelling we have all been waiting for!!!

I've been waiting so long for Cinderella and I really hope that one is coming soon! It's my favorite fairy tale! :D

None the less this one sounds really interesting! All that's left for the princesses is Cinderella, Rapunzel, Princess and the Frog and maybe Moana. My real review will come soon! :D

I'm a huge lover of a lot of Disney movies. And initially I also really loved Frozen. And then the hype happened. Everyone was talking about Frozen. Frozen was around every corner, in every store. Every girl wanted to be Elsa (and surprisingly never Anna, because she doesn't have magic, I assume?) and Let it Go (in the version of Idina that gives me headaches) echoed everywhere around me. I never watched the movie again.

Every girl wanted to be Elsa (and surprisingly never Anna, because she doesn't have magic, I assume?) and Let it Go (in the version of Idina that gives me headaches) echoed everywhere around me. I never watched the movie again.

But, this book reminded me why I loved the story so much and what the true power of this story is. This twisted tale is different from the other twisted tales I've read so far, but in its own way it's still amusing, entertaining and unique. A lot of scenes from the original movie make an appearance in this book, but twisted, in a different context or at a different time. It creates a strange familiar and yet original feel at once.

And the heart of the movie, the heart of the story? That has only grown stronger and more prominent in this version of the tale. This tale is even more about the love between two sisters, unconditionally and without doubt. It's even more about two lost girls finding their way back to each other, facing every obstacle. It's about two young women knowing one thing for sure in a world full of questions: They need to help the other, because the other needs them.

Thank you so much for letting me rediscover this tale and why I loved it so much! (And thank you for making Hans's betrayal hurt even more in this version of the tale ;-))

I really loved this book so much and I love all things Frozen I liked how this book changed certain bits of the story while other things did not change too much. I really loved the characters especially Anna and Elsa I think they were so much more fleshed out in this book since we read the book mostly in one or the other's POV. I also liked their parents and Kristoff so much more the parents were made to be more than people fearing their daughter's powers they were just parents trying to protect

I also liked their parents and Kristoff so much more the parents were made to be more than people fearing their daughter's powers they were just parents trying to protect both of their daughters. I like Kristoff more here since it seems like he is a bit more fleshed out and as for Hans it's more apparent how bad he is and how he is not good for Arendelle. I liked the plot a whole lot I liked how it changed from the movie and how some new characters were added to make the change make more sense. I really liked how the story flowed and how certain roles changed in a few ways I really enjoyed reading this book. So overall I loved this book and would read more books like it.
