Gideon is focusing his last few weeks as a civilian on drafting wills for soldiers. Most of them are, but one of the exceptions is Tom Preston, part owner of Preston Shoes, which has made a fortune providing shoes to the soldiers. Tom wants a new will leaving his share of the family business to his new wife and their unborn child – a wife the rest of his family knows nothing about. When word comes back that Tom has died, this new will goes missing, and his family doesn't want to acknowledge his widow. Elizabeth is quick to jump in, getting her family, all concerned, to come up with a scheme to get this war widow the money she should have inherited. But what complications might there be along the way?

Yes, there are complications. We wouldn't have much of a novel without them. It would have been nice if they were started a little sooner, but that's a minor complaint. I was hooked the entire time, and it only became harder to put the book down the further I got into it. History came alive, and I felt like I was part of what was happening in the New York City area during this time. It helps that the characters are extremely strong. Through them, I came to care about the plot and the history that was unfolding around us. Yes, I felt that welcomed into the world that I was actually part of what was happening on the page. If you aren't taking these trips back in time, you need to do so today.

NOTE: I received a copy of this book.

I have learn of things that happened during the World War that I didn't know to my knowledge we didn't have The American Protective League in WW TWO. It seems those of German descent were treated similar to the Japanese during the second war. The flu of 1918 was a world problem as it spread every where and many dropped dead where ever they were.. Gideon has it and Elizabeth and his Mother work together to pull him through it. This is the 3rd installment of the Counterfeit Lady series.

Gideon Bates awaiting his call up is writing wills for the soldiers before they are shipped overseas. He writes a will for Tom, a partial owner of a shoe factory. Tom's brother and stepmother do not approve of his wife. When Tom is reported dead, his brother steals the original will leaving the only will left that leaves every thing to his brother. He removed all the money from Tom's bank, this leaves the widow and unborn child penniless. The World War I is about over, but an another draft is possible, age limit has been raised and Gideon Bates is awaiting is his call up.

Elizabeth's family decides to do a con that will recover the stolen money. The twist and turns the con takes will your amuse and hold your attention. The ending is a surprise. I HIGHLY RECOMMEND THIS BOOK AND SERIES.

I really enjoyed the setting and plot of this mystery. Elizabeth and Gideon were interesting and well-written characters. I loved all of the historical details woven throughout, and the author did a particularly good job of portraying how the flu epidemic rampaged the city. The mystery part was well-plotted and solidly executed. I can't wait for the next one in the series!

I do recommend reading this series in order, so plenty of time to catch up before this one releases on November 5, 2019!

Writing: 3 Plot: 3.5 Character: 4

Another fun historical mystery in Thompson's Counterfeit Lady series. This episode is set in New York amid the American Protective League, the dollar-a-year men, and the women's suffrage movement of the late WWI years. Elizabeth Miles is our reformed grifter engaged to strait-laced lawyer Gideon Bates who applies her arts to the case of a war widow whose husband's greedy family is trying to cut her off without a cent. Elizabeth's rakish relations are brought in

New York amid the American Protective League, the dollar-a-year men, and the women's suffrage movement of the late WWI years. Elizabeth Miles' our reformed grifter engaged to strait-laced lawyer Gideon Bates applies her arts to the case of a war widow whose husband's greedy family is trying to cut her off without a cent. Elizabeth's rakish relations are brought in to run the con, donating a portion of their take to the widow. A definite cozy, the historical detail and appealing characters make this an enjoyable read. A nice new series from the author of the Gaslight Mysteries (which I loved but have definitely run their course).

Thanks to the publisher, via Netgalley, for an advance e-galley for honest review.

This series continues to be particularly excellent. Victoria Thompson knows the time period well, and this time the story includes Gideon's imminent draft into World War I, as well as the 1918 influenza pandemic (if you read this, the streetcar scene!!). I have to be honest, I'm not sure I totally understood how the con in this story was going to work (too much back and forth about money passing hands for me to

I have to be honest, I'm not sure I totally understood how the con in this story was going to work (too much back and forth about money passing hands for me to keep track of), but I liked the story and appreciate Elizabeth continuing to combine her family's skills as grifters with her desire to help people (and let greedy businessmen be conned). This was a fast paced historical fiction- though this series is definitely best if read in order!
