by Frank L. Cole is the third and final book in the Middle grade children's fantasy Potion Masters series. I rated this one 3.5 stars and rounded down to 3 stars. by Frank L. Cole is the third and final book in the Middle grade children's fantasy Potion Masters series. I rated this one 3.5 stars and rounded down to 3 stars. The only reason that I rounded it down is that this is the only book in the series that I have read and I was completely lost in the beginning of the book. There are terms and categories of people that are unique to this fantasy world that were not initially apparent. As the book goes on, the reader gains the necessary knowledge, but it was somewhat bewildering to someone that had not read books one and two.

Our main protagonist is Gordy Stitser, an eighth-grade student with the ability to make potions. He and his family are hiding since his evil grandfather stole the Vessel which is the source of power for all potion masters. So, this is a fight of good versus evil with Gordy and his school friends playing major roles in the effort for good.

The plot is interesting and the goals of the characters are clear. Their interactions and motivations are believable and well-drawn. The battle scenes are described well and are mind-boggling. The scenes progress in a compelling manner with effective transitions.

Overall, this book was unique and interesting and I enjoyed it. The mechanical inventions and potions not only played a major role in the story, but were original and even somewhat strange. I would definitely recommend this book to those that enjoy this genre with the caveat that they read the series in order.

Had so much fun writing this series. I'm sad to see it end, but excited for you all to read it!

My twins and I have really enjoyed reading this series together. This book doesn't officially release until January. We didn't want to wait that long to read it, so I was very glad to receive an ARC from Netgalley. When I told my twins that we got to read it early, they cheered.

This is book three in a series, and I recommend reading the books in order. Readers who enjoyed the first two books will definitely want to pick up this one. Fans of middle grade fantasy who haven't read them should give

This is book three in a series, and I recommend reading the books in order. Readers who enjoyed the first two books will definitely want to pick up this one. Fans of middle grade fantasy who haven't read them should give the series a try (now that the last book is almost out, it's the perfect time to start).

Gordy, his family, and his friends have big challenges as they try to prevent Gordy's grandfather, Mezzarix, from unleashing chaos across the globe. I don't want to go into the plot that much because I don't want to spoil the book, but there were lots of high-stakes events that left my kids begging for another chapter (or two or three). The book included battles, surprising twists, a trip through the Swigs, and some exciting developments for some of the characters. Also, lots of characters with accents (I didn't nail all of them as I read aloud, but I had fun trying).

I received this book as an ARC from Shadow Mountain Publishing in exchange for an honest review. Opinions and thoughts expressed in this review are completely my own.

Potion Masters is the most interesting sought out series we know and to hear that The Seeking Serum is the last installment of the series was both heartbreaking and motivating to read because when you read the last book in a series, you want it to be the best for last and this definitely was the best in the series. Gordy and his B.R.E.W. crew are in for the adventure of a lifetime when they are conflicted in a war between the Scourges lead by the evil Mezzarix who happens to be Gordy's grandfather. Gordy is set to find Mezzarix and put an end to all of his evil works and his plan to move to Florida to start his own evil empire. Gordy teams up and fights one last battle to ensure B.R.E.W. their rightful glory and the safety of his family.

We will consider adding this title to our JFiction collection at the library. That is why we give this book 5 stars.

is categorized as middle-grade fiction. I feel like it would appeal to anyone who loves a great adventure and lovable characters. This is the third book in a series. The whole series is well written and enjoyable. This book is the "icing on the cake."

The book is told from several points of view. Gordy, his friends, and his grandfather. I loved seeing each of their thoughts and struggles. It brought the characters to life for me. The fantasy elements of the story are fun! Some kids who have unique talents turn into heroes and save the day from evil. It is sure to be a hit with young readers.

This is a great conclusion to the trilogy. Make sure to read the books in order. It has been a while since I read the first two books and it took me a bit to get back into the world that Frank L. Cole created.
