## What people Say:

### Miss OP

Just hit the end of book 14. Whoa :) Can't wait for the next one.

I hate EVERYONE who reads this book before me.

### T.J. Fox

Overall: 4/5 Stars

World Building: 5/5 Stars

Series Continuity/Expectations: 3/5 Stars

Personal Opinion: 4/5 Stars

I am yet again struggling to review a book in this series that I love. I could almost copy and past my review from the last book as the issues I had with that one are still very much present in this one.

This is now the at least the third book in a row where you see little to no character growth from Kaylin. You see little to no page time from some of the original favorite characters

I received a copy of Cast in Wisdom in exchange for a fair and honest review.

Cast in Wisdom is the fifteenth novel in Michelle Sagara's Chronicles of Elantra series, and it is still going strong. It's hard to believe that we're already fifteen books in. But we are. Kaylin has come a long way in these tomes, and I for one am looking forward to the next step in her journey.

They say that you can never truly leave the fiefs. Perhaps that is true. There is something growing, something waking in

I received a copy of Cast in Wisdom in exchange for a fair and honest review.

Cast in Wisdom is the fifteenth novel in Michelle Sagara's Chronicles of Elantra series, and it is still going strong. It's hard to believe that we're already fifteen books in. But we are. Kaylin has come a long way in these tomes, and I for one am looking forward to the next step in her journey.

They say that you can never truly leave the fiefs. Perhaps that is true. There is something growing, something waking in the fiefs. Kaylin and her allies have been tasked with investigating, which means they're about to get into a world of trouble.

The fiefs have long been the final boundary that keeps the Shadow at bay. So one can understand all of the concerns about maintaining their status. We already know that fractures have been found and made. So the real question is, what happens next?

“Kaylin knew it was going to be bad when discussion banked the minute she entered the dining room.”

I have been looking forward to Cast in Wisdom ever since I read the description, and I've got to tell you; it does not disappoint. This novel embodies everything that made me fall in love with the series to begin with and then some. It was brilliant and intense, and so full of the magic that makes this series stand out in a crowd.

Honestly, I'm not even entirely sure where to begin with my review. The magical system is one that I've always loved, so hearing how happy I was with it here is probably no surprise. Michelle Sagara has a way of establishing and maintaining complex systems. It's extremely impressive.

“Do not underestimate librarians.” Words to live by, as said by Lannagaros, the Arkon of the Dragon Empire, in Cast in Wisdom. He’s talking about the importance of returning a book, a very particular book, to the Library of the Academia, an Academia that has been lost in the borderlands between the fiefs of Elantra for a very long time. A time measured in centuries if not millennia. A time when Elantra was whole, Ravellon had not yet fallen, and Lannagaros was a young student at the Academia in a time before the wars between the Dragons and the Barrani devastated both of their peoples and the world on which they lived.

A time that has lived forever in his heart. A time that is so far back in the distant past that Kaylin Nera cannot imagine such a thing ever existed. To her brief, mortal eyes, Lannagaros has always been ancient beyond reckoning, and he has always been the Arkon.

We see this world through Kaylin’s eyes. She is human and mortal and fragile in a world that is dominated by the immortal Dragons who rule Elantra and the equally immortal Barrani whose political infighting often threatens to tear the world they all inhabit down to its foundations.

Elantra is a world with epic fantasy proportions, but its stories are often on an urban fantasy scale. Kaylin is a ground Hawk, the equivalent of a police officer who serves the Halls of Law, which are more or less what their name implies. Kaylin’s job is to help keep the peace “ even as her extracurricular activities threaten to break it.

Due to incidents that have happened to or around Kaylin in her past, she is mixed up in both the Dragon and Barrani Courts, and her actions often shake the world “ to the surprise of nearly everyone around her “ especially herself.

Kaylin’s adventures began in the novella Cast in Moonlight almost 20 years ago, with Cast in Shadow the first full-length novel in the series. This is definitely a series where you need to start in the beginning to get a grasp on this world, Kaylin herself, and the found family that has gathered around her “ sometimes without any of her intention at all. And we discover ourselves caring about these people because she does. And because we care about her.

Kaylin is a chaos magnet “ she is a person to whom things happen “ whether she wishes it or not.
