And this is the end my beautiful and only friends as like Jim Morrison has sang.

Most of the readers have been disappointed after the second book which I read yesterday. (I devoted my three days to finish trilogy and the start was so impressive, at the second book we just startled by bumpy roads and disappointed by the direction and team Alcher's absence because Hatcher turns into big bad bloody wolf and started losing his humanity parts)

So this book could be great conclusion of the story I fully invested and root for Alice and Hatcher a.k.a team Alcher forever! Or it could be another disappointment forced me howling to the moon and throwing eggs against my neighbors' windows. (This is my hobby! They still have no evidence against me and any bad book ending can give me the motivation to avenge my noisy, prying neighbors anyways.)

At 58 pages I was a little pissed because we're directly introduced to Elizabeth, the sister Alice forgot now replacing Alice in the family and surprise, surprise, Elizabeth is also a magician and she has powers like Alice.

Nearly half of the book is about her story and her meeting with Jabberwocky as a purple butterfly in a jar. I was a little frustrated at first because the book is already short and I needed more Alice and Hatcher time and their HEA or tragic ending (Whatever the author decided I was so ready to welcome it with open arms.) but after reading Elizabeth's story, I liked her character and I understood connection of two sisters because they telepathically helped each other to fight against different kinds of monsters and save themselves. And I think this is a small indication that author is planning a spinoff about Elizabeth and we're gonna see future stories of team Alcher as well.

Rest of the book was fast pacing. Alice and Hatcher's adventures take an unexpected turn which means they're so close to their HEA or be killed by a kind of cult a.k.a. a vicious council members. And there are some great news but I'm not gonna share it. Ending was a little fast and haphazard for me. I wanted to read more about this epic duo but I'm happy that the author gave us some glimpses from Hatcher's Nicholas times.

So it was riveting, entertaining, bloody, moving, dark, unconventional read with Christina Henry's unique, extra ordinary, amazing world-building. This is amazing trilogy and retelling of Alice's adventures.

I absolutely adored The Chronicle of Alice duology, so I just knew I had to get my hands on this collection of shorts!

I'll have to say that my two favorites were, When I First Came to Town and The Mercy Seat. I think because I love Hatcher so much! So I loved seeing his life before Alice and then after Alice!

Girl in Amber was just okay—I think because Hatcher was missing for most of it, and I wish he would have been there more. But I get why it was done that way. And as for Lovely Creature, it

Overall, this is a wonderful collection who wanted a bit more after reading the original Alice duology! Also, Henry has the best writing!

I just love these novellas and how Christina Henry reinvents our favorite fairy tales with a dark touch.

Alice in Wonderland is one of my favorite stories, and this was a fun, nostalgic treat for me, again with a spin. I'm excited to see what fairy tale or classic she'll tackle next.

More thoughts to come.

I received a gifted copy. All opinions are my own.
