What people Say:

Danielle

This was a super archetypal white woman book, and I guess I shouldn't have expected anything else. Pretty much all of the stories are already publicly known or have been previously published, and are just summarized here. I know the book doesn't conflate forgiveness with condoning, but it isn't really apparent what the message is, other than "forgiveness is important for your well-being." I agree, but I can't read this without thinking of all the people dying right now due to government negligence

This was a super archetypal white woman book, and I guess I shouldn't have expected anything else. Pretty much all of the stories are already publicly known or have been previously published, and are just summarized here. I know the book doesn't conflate forgiveness with condoning, but it isn't really apparent what the message is, other than "forgiveness is important for your well-being." I agree, but I can't read this without thinking of all the people dying right now due to government negligence, or how many black people have died after facing police brutality. Anger is such an important part of living, especially for voices that are systemically silenced. It is so tone deaf to publish something like this comparing playground fights to school shootings, and act like that's a valid response.

Marianne

Meh. It wasn't horrible, but the premise was a lot more interesting than the execution.

It read like an 8th grader's personal essay - the author inserted herself into the picture a lot more than I felt was valuable. When you compare a falling out with your friend to the type of forgiveness someone like Elizabeth Smart or a Sandy Hook parent has to contemplate, it's a little much.

I'm not unaware the premise of the book is that the act of forgiveness is deeply personal, but it didn't work for me.

I'm not unaware the premise of the book is that the act of forgiveness is deeply personal, but it didn't work for me.

The stories themselves and some of the info gleaned from her interviews was interesting. But a lot of the book was repetitive and kept trying to hit the same points over and over again with a sledgehammer.

Lee Woodruff

Most of us probably have an inconsistent relationship with the capacity to forgive. For many, it can be a life-long process. The grace that comes with forgiveness is lovingly detailed in Schwarzenegger-Pratt's new book. From victims of sexual trauma or ethnic violence to the kidnapping of Elizabeth Smart and Sandy Hook Mom Scarlett Lewis, the book contains interviews and stories from everyday folks and household names. The author draws bite-sized conclusions that allow us to see the potential to

kidnapping of Elizabeth Smart and Sandy Hook Mom Scarlett Lewis, the book contains interviews and stories from everyday folks and household names. The author draws bite-sized conclusions that allow us to see the potential to detach the anvil of resentment and anger that can pulverize a soul. Gift this book or leave it by your bed to remind yourself good people exist in our imperfect world.

Candice

The stories are some of the most known from the news but the twist of forgiveness within them is inspiring. Katherine does a good job of highlighting different ways to forgive and that it comes in many ways. The main disappointment is she uses a riff with a childhood friend as her catalyst for writing the book where as we all know her relationship with her father should have been touched on.

Steve

I won this book in a giveaway.

The personal stories of forgiveness in this book are pretty incredible and inspiring. I would have liked to have seen more commentary from the author with some suggestions about how to implement the forgiveness process, but the stories illustrate clearly that it can be done in the most difficult circumstances.

I really enjoyed reading these stories. The diversity of the persons and situations presented should appeal to a wide audience and is organized well. I'm grate
